

RAHUL TAK

Senior iOS Engineer | iOS Team Lead | Swift | SwiftUI | UIKit | eCommerce

Bengaluru, India | Open to Relocation | 60 Days Notice | +91-9509424233 | rahultak2008@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior iOS Engineer and iOS Team Lead with 10+ years of experience building native iOS applications using Swift, SwiftUI and UIKit across eCommerce, retail, payments, enterprise and customer-facing mobile products. Strong hands-on experience with MVVM, VIPER, MVC, Swift Concurrency, async/await, REST APIs, server-driven UI, reusable component architecture, networking, testing, performance optimization, CI/CD and production releases. Experienced in modernizing legacy Objective-C applications, integrating payment platforms including PayPal, CyberSource and Midtrans, collaborating directly with clients, mentoring developers and owning features from development through production.

CORE TECHNICAL SKILLS

Languages: Swift, Objective-C

iOS: SwiftUI, UIKit, Cocoa Touch, Core Data, CoreLocation, Accessibility, Localization, Arabic, RTL

Architecture: MVVM, VIPER, MVC, Clean Architecture, Server-Driven UI, Reusable Component Architecture

Concurrency: Swift Concurrency, async/await, Actors, Structured Concurrency, GCD, Combine

Networking: URLSession, Alamofire, REST APIs, JSON, APIClient, C# APIs, Laravel APIs, Salesforce APIs

eCommerce & Payments: Product Listing, Product Details, Checkout, Promotions, PayPal, CyberSource, Midtrans, Cash on Delivery

Data & Platforms: Core Data, Firebase, Parse, Magento, Sitecore, Salesforce

Testing & Quality: XCTest, UI Testing, Snapshot Testing, SwiftLint, Sonar, Debugging, Memory Management, Performance Optimization

CI/CD & Release: Swift Package Manager, CocoaPods, Carthage, GitHub Actions, Jenkins, Fastlane, App Store Connect, TestFlight, Signing & Provisioning

Services & SDKs: Firebase Analytics, Crashlytics, New Relic, FCM, APNs, Firebase Authentication, Whatfix, Dialogflow, Kore.ai, Google Maps, AGS Maps

Leadership: Agile/Scrum, Estimation, Sprint Planning, Client Collaboration, Technical Discussions, Code Reviews, Mentoring, Team Leadership

PROFESSIONAL EXPERIENCE

Accenture India

Packaged App Development Team Lead | May 2024 – Present | Bengaluru, India

Qatar National | SwiftUI, VIPER

- Developed enterprise iOS features including Retirement, Falcon and Child Education modules using SwiftUI and VIPER.
- Managed the six-person Falcon module team within a broader 25–30 member engineering environment; mentored two developers, coordinated delivery and conducted code reviews.
- Contributed to server-driven UI using Sitecore JSON to dynamically render SwiftUI interfaces through reusable components such as text fields, buttons and views.
- Worked with the custom networking layer/APIClient using Swift Concurrency, async/await and structured concurrency; contributed XCTest coverage.
- Supported Arabic, RTL and accessibility requirements across reusable dynamic components.
- Supported CI/CD Staging, QA and UAT delivery and represented the Accenture iOS team onsite in Qatar for client-side iOS UAT; contributed to successful Falcon LM delivery recognized in the client newsletter.

Heineken BR & MX | Swift, Objective-C, MVC

- Worked as the sole iOS developer, owning feature development, client discussions, estimation, sprint planning, production support and end-to-end releases within Agile/Scrum.
- Developed Swift and Objective-C features using Alamofire and async/await; improved responsiveness by addressing home-page and bottom-tab loading bottlenecks.
- Integrated Whatfix SDK and migrated dependencies from CocoaPods to Swift Package Manager (SPM).
- Owned App Store Connect/TestFlight distribution, signing/provisioning, production and emergency/hotfix releases, including post-release production fixes.

Rishabh Software

Senior iOS Developer | Feb 2021 – May 2024

IG Inspect / IG Enforce | Swift, Objective-C, UIKit

- Developed offline-first iPad applications for government building, land-use and environmental inspection/enforcement workflows.
- Improved Core Data performance, inspection-detail UI/workflows, additional steps and PDF generation through APIs.
- Integrated C# APIs and enhanced AGS Maps with map layers and inspection directions; contributed to GitHub Actions-based App Store releases and direct client delivery.

Tenfold | SwiftUI, Firebase

- Developed chat list and chat detail experiences for a temporary anonymous messaging application.

Ranosys Technologies Pvt. Ltd.

Senior Software Engineer / iOS Developer | Sep 2016 – Feb 2021

Charles & Keith | Fashion eCommerce

- Led iOS development across product listing, product details, checkout, promotions and production support; integrated PayPal, CyberSource and Cash on Delivery.
- Worked across legacy Objective-C/Swift with Magento and later modernized the application with modern Swift and Salesforce APIs; designed the initial iOS boilerplate including module structure, MVVM, networking, reusable components and navigation.
- Served as the primary iOS technical contact for the revamped application: client discussions, iOS resource allocation, estimation, technical discussions, Scrum coordination, task delegation and delivery tracking; managed and mentored two iOS developers.
- Implemented end-to-end PayPal and CyberSource flows covering SDK integration, payment UI/requests, backend APIs, callbacks, success/failure, cancellation, payment status, checkout errors and order/payment confirmation; supported Remote Config-driven sale offers.
- Managed App Store/TestFlight releases, signing/provisioning, production/hotfix releases and seasonal sale support; received the Ranosys Exceeding Expectations Award.

Group Buy | Multi-Vendor eCommerce

- Key iOS architecture contributor in a two-developer team; led architecture planning and initial foundation using Swift, UIKit and MVVM.
- Developed Home and Profile, integrated Laravel APIs and implemented Midtrans payment flows; managed manual App Store/TestFlight, signing/provisioning, production and hotfix releases.

Pedro | Fashion eCommerce

- Led product listing/details, promotions, performance, testing and releases for the Magento-backed eCommerce application; supported Cash on Delivery and seasonal-sale production issues/hotfixes.

MyBrand | Restaurant Ordering

- Contributed to architecture and estimation for vendor and customer iPhone applications; developed complex Home/Product Detail UI, reusable JSON-driven components and promotion/coupon checkout flows.

ChatGram | Messaging / Conversational Support

- Led chat listing/detail using Swift and Objective-C with text, image and PDF support; integrated Google Dialogflow intents/entities/responses with Parse-backed data.

Sample Store | eCommerce

- Contributed to features, enhancements and bug fixes in an Objective-C MVC iOS eCommerce application using XML API responses.

Avenging Security Pvt. Ltd.

iOS Developer | Apr 2016 – Sep 2016

Education / Video Learning

- Built an education/video-learning iOS application from scratch with backend class content, YouTube playback, buffering and time-based availability.

Orion InfoSolutions

iOS Developer | Jan 2016 – Apr 2016

Music Application

- First iOS developer in the startup; independently built the company's music application from development through delivery.

EDUCATION

- MCA — R.I.E.T., Jaipur
- BCA — MDSU, Ajmer

AWARDS & RECOGNITION

- Ranosys Exceeding Expectations Award — Charles & Keith App
- Client Recognition — Successful Falcon LM delivery, Qatar National
- Client Commendation — iGInspect
